M-Nav 800

Quick Start Guide

This Quick Start Guide provides a very basic overview of your M-Nav 800. Refer to the User Manual and Magellan documentation for further information.

Start up

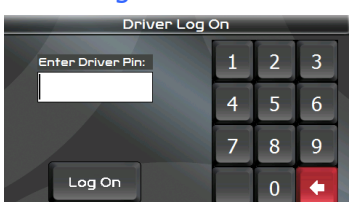
Press and hold the POWER button for 2 seconds (on the top edge, left of center).

Main Menu

The 'Main Menu' may have between four and seven icons depending on the features that have been enabled by your fleet administrator (see the User Manual for more information).

Touch an icon to select that option.

Driver log on

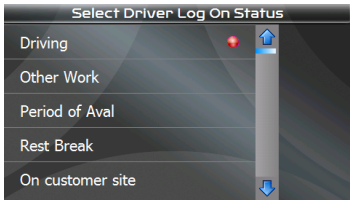


The 'Driver Log On' screen is displayed immediately after the ignition is turned on.

Note: This screen will only appear if this feature has been enabled by your fleet administrator (see the User Manual for more information).

Enter your Driver PIN (Personal Identification Number) then touch **Log On**.

Driver status options



If enabled, your fleet administrator will set up the required driver status options. (A sample list is shown.)

Touch the required status to select it.

Using Nav

Find a destination

On the 'Main Menu', touch **Nav**.

On the Magellan Menu, touch **Address**.

Start entering the name of a city or suburb.

You can:

- Touch the green tick to accept the displayed option.
- Touch **List** to see a list of cities/suburbs that match.

If you see a list, touch a city or suburb to select it.

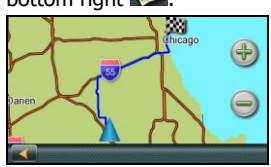
Start entering a street name.

Touch a street to select it from the list.

Enter the street number.

Touch the green tick .

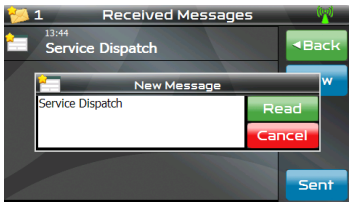
You can preview the journey by touching the map button in the bottom right .



Touch **GO** to start navigation.

Using Messages

Read / store a new message

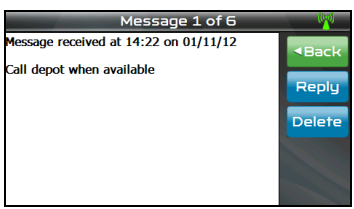


When a new message arrives, the 'New Message' popup box is displayed and a friendly alert sounds.

Touch either:

- **Read** to display the message now.
- **Cancel** to store the message to read it later.

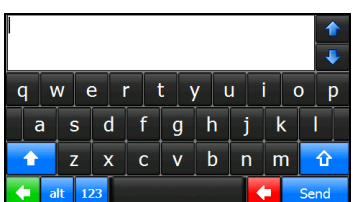
Reply to a message



Touch **Messages** on the 'Main Menu'.

Touch the message you want to reply to.

The message is displayed.

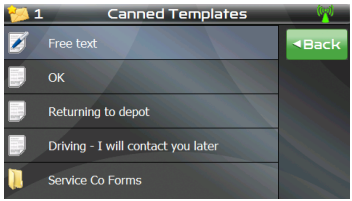


Touch **Reply**. Touch either:

- A canned template message; e.g. **Job accepted**.
- **Free text** to type your own message using the onscreen keys.

Touch **Send**.

Create and send a message



Touch **Messages** on the 'Main Menu'.

Touch **New**.

The 'Canned Templates' screen is displayed.

You can choose to use Free text or a canned message response.

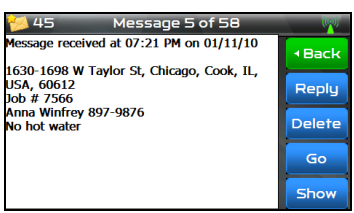
Touch the option you want.

Touch **Send.**

How to use a "Route To" message

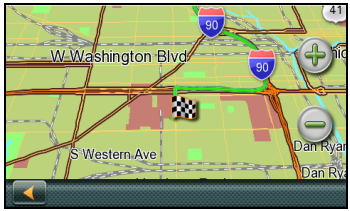
If the message is not already displayed:

- Touch **Messages** on the 'Main Menu'.
- Touch the message that contains the location.



When the message is displayed, touch **Go**.

The M-Nav 800 calculates the route and begins navigation.



If you press **Show,** the route overview is shown. You can use the **+** button to zoom in on the destination for more detail.

Using Bluetooth

You can pair a compatible Bluetooth-enabled mobile phone with the M-Nav 800 to make or receive calls using the M-Nav 800 as a hands-free device.

Touch **Phone** on the 'Main Menu'.

Touch the tool button to set up pairing with your phone.

The small Bluetooth icon (top right) shows the status. If the icon is:

- **Grey**, Bluetooth is OFF.
- **Blue**, Bluetooth is ON and paired. You can make and receive calls.
